### **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance: Claims 1-20 are allowable over the arts of record. This is because the arts of record does not teach or disclose the flexible and dynamically reconfigurable convolutional interleaver/de-interleaver that is operable to interleave/de-interleave a plurality of symbols as recited in claims 1, 6, 11 and 16, and including: wherein at least one of the first row position pointer, the interleaver array row to which the write commutator communicatively couples, the second row position pointer, and the interleaver array row to which the read commutator communicatively couples is updated by incrementing it by a positive value integer; wherein the positive valued integer multiplied by the interleaves depth and multiplied by a modulo function of the memory block length results in a constant value; wherein a difference between the first time and the second time is a predetermined selectable delay that corresponds to a preselected number of symbols to be interleaved/de-interleaved by the interleave/de-interleaver in its particular configuration; and wherein the particular configuration of the interleaved/de-interleaver is selected from among a predetermined plurality of configurations in which the interleaver/de-interleaver may be configured.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
